Description

It is a race between pirates where they have to avoid obstacles like an iceberg to reach the great city of Ain Shams. Unfortunately, however one pirate was so drunk that he went right in it and his ship sank dramatically and yet to be found.

How to open

First way

1. Download the project from GitHub:
<https://github.com/M-Elsaeed/Computer-Graphics-Project>
2. Open the project with vs code.
